Government Warrior Familiarization and Evaluation
April – May 2004

Based upon the experience we gained in running the WF&Es in August 2003 and more recently, February 2004, we have re-organized our approach. Because the Training Development community is for the most part compartmentalized by product, we have decided to break up the familiarization periods into four major categories. This allows the evaluators to concentrate on their areas of expertise. By matching evaluators to the material to be evaluated we will be able to continue to gain valuable feedback with fewer evaluators.

Government Warrior Familiarization and Evaluation April – May 2004

The schedule is as follows:

- **April 20th – System Administration. This will be for ASAT Administrators and in addition to Sys Admin, will offer an overview of the entire TDDT.**

- **April 27th – Collective Tasks. This will be for collective task developers and will also cover Support Tables, Unit Task List, MTPs, and Drills. Sys Admin will be demonstrated to this and all subsequent groups.**

- **May 4th – Individual Tasks. This will be for individual task developers and will also cover STPs, Individual TSPs, and Sys Admin.**

- **May 11th – Lesson Plans / POIs. This will be for lesson developers and POI specialists as well as Course developers. Sys Admin will be demonstrated.**

Government Warrior Familiarization and Evaluation
April – May 2004

We anticipate groups of 5 to 7 evaluators. All sessions will be conducted at the ATSC Technology Training Facility, B-1737, Fort Eustis. There will be no VTC participation for this series of WF&Es. All sessions will be full day, 8 to 4 each Tuesday. Completion of an evaluation questionnaire will be scheduled at the end of the day.

Questions or requests to attend a particular session should be forwarded to:

Randy Young, SAIC, at 703-676-4224

Joe Dugan, at DSN 826-4166 ext 7036

Commercial (757)878-4166 ext 7036
